

# A NEW FUTURE FOR FAIRFIELD MIDDLE SCHOOL

On **Tuesday, November 5**, our community will consider a **\$38.51 million general obligation bond** to potentially construct a new middle school.

The middle school was constructed in 1966 and a comprehensive building assessment by architects and engineers led FCSD leaders to determine that continuing to invest limited financial resources into the school is not a practical or cost-effective solution.

Community members are encouraged to visit the middle school for a tour and see the challenges our students, teachers and staff face every day. **You can easily scan the QR code with your mobile device** to register for a tour or click [HERE](#).
